Work Experience

JUNIOR FLUTTER DEVELOPER

Just Charge Technologies Pvt Ltd. | April 2023 - Present

- Played a key role in the development and enhancement of an MVP social media application similar to Instagram and Reddit, focusing on core features and functionality.
- Collaborated closely with the team to prioritize and implement essential features, ensuring a streamlined user experience and foundational functionality.

LEAD SOFTWARE ENGINEER (TECH LEAD)

E-Cell Chandigarh University | Jan 2022 - April 2023

- Improved workflow/organization structures by working with a team of 50+ members.
- Crafted new concepts/designs 3X better than before by leading a tech team of 12 core members.
- Fulfilled Technical needs by building robust & responsive applications for enthusiastic entrepreneurs incubated within the organization.

TECHNOLOGY & MARKETING CONSULTANT

Divya Developers, Mohali, Punjab | Jan 2023 - Mar 2023

- Spearheaded technological advancements and digital marketing strategies for Divya Builders, resulting in a 10X increase in profits from social media and other online platforms.
- Streamlined and enhanced the company's social media presence, effectively leveraging various platforms to engage with the target audience, generate leads, and drive conversions.

JUNIOR MEAN STACK DEVELOPER

BOKA TECH OPC, Pune, Maharashtra | May 2022 - Nov 2022

- Launched the first MVP in a month by implementing key features such as user registration, login, and profile management. Also solved critical bugs that prevented users from signing up or logging in.
- Optimized the code by identifying and fixing bugs, improving engagement logic, and reviewing broken code. This resulted in a 20% improvement in performance, a 15% decrease in churn, and a 10% increase in user satisfaction.

FULL STACK SOFTWARE DEVELOPER

Great future private limited. | April 2020 - Sept 2021

- Designed efficient web applications by analyzing market needs.
- Implemented core concepts of software development in projects.
- Mentored interns & delivered sessions on front-end development principles.

Scholastic accomplishments

- Secured the 2nd runner-up position in a **national-level hackathon** organized by the **Rajasthan government**, outperforming **8000+** participants by developing an IoT device using Python.
- Recognized as the winner of the Rise Startup Summit, competing against **100+ startups**, and awarded a cash prize of **5 lakhs** along with 18 months of incubation support.
- Acknowledged for outstanding performance and granted 24-hour access to KCC and CU E-Cell, showcasing exceptional skills and commitment to entrepreneurial endeavors.
